Downloads page. . Condor Landscape Toolkit. Condor Landscape Toolkit is a plugin for Condor 2 that adds a lot of features. . "Ibsen says "Wow!". Condor Landscape Toolkit was and is a work of art. The attention to detail, the realism and to match that and more. The scenery is the best of its kind, and the work to create the glider textures is outstanding. The gliders look fantastic and are excellent.". Condor 2: A Truly Unique and Truly Interactive Scenery and will

be a major milestone in the evolution of flight simulation for glider pilot. Condor 2 is a very unique and extremely fun flight simulation for gliders - it's a combination of an instrument simulator with great graphics and a realistic flight model. Feb 15, 2019

"Condor is a most sophisticated collection of landscape and graphics. Ibsen has created a space/landscape in a way that I have not yet seen and the graphics are beyond outstanding. This is so much more than just a simulator."

We are a new glider flight simulation company based out of Vancouver, BC, Canada. We're a group of aviation enthusiasts with a passion for glider flight simulation. You are very welcome to explore the website and read about what we're all about. Oct 20, 2018

"Condor is an amazing glider simulation that I highly recommend for any glider pilot. I'm on the fence about the future of the company and their future product offerings, but I would certainly encourage anyone considering

buying a flight simulator to at least
